Shaping Europe's digital future

EVENT | WREXHAM, UNITED KINGDOM | 19 November 2010

ITA 11 - Fourth international Conference on Internet Technologies and Applications

The scope of this conference is wide and covers all aspects of Internet activity ranging from technical hardware and software solutions to applications and the wider issues arising from them. The event aims to bring together researchers and developers from academia and industry across all fields of Internet computing and engineering. A call for papers has been launched (submission deadline: Friday 4th February 2011).
